The information in this report is to provide assistance to organisations in continuous quality improvement. Responsibility for the accuracy of submitted data lies with the contributing organisation. The ACHS makes every effort to validate the information it receives prior to analysing and publishing results.

Lines in *italic/greyed* highlight results that require attention. These results demonstrate where an organisation is statistically significantly 'different' to all other organisations submitting data for that particular indicator and where the results are undesirably lower or higher than the expected rate.

Lines in **bold** highlight results where the aggregate rate is outside the 99% confidence interval. This indicates the organisation is statistically significantly 'different' to all other organisations submitting data for that particular indicator.
